Chicago, IL | (847) 220-7663 | rohitkatakam2026@u.northwestern.edu | <https://www.linkedin.com/in/rohitkatakam/> | github.com/rohitkatakam | rohitkatakam.github.io/homepage

EDUCATION

Northwestern University Evanston, IL
Master of Science (MS) in Computer Science January 2026 - December 2026
Northwestern University Evanston, IL
Bachelor of Science (BS) December 2025
Major in Computer Science; Minor in Global Health Studies
Cumulative GPA: 3.78/4.00
Relevant Coursework: Cloud Software, Algorithm Design, Cybersecurity, Human-Computer Interactions, Computer Networks, Machine Learning, Computer Networking

WORK EXPERIENCE

Commure Mountain View, CA
Incoming Software Engineer Intern Starting June 2025
RCM Core Team
Humana Louisville, KY
Software Engineer Intern May 2024 – December 2024

- Reduced Epost database SQL query times by ~20% by deploying quick and reusable data archival and purging processes
- Designed strong microservice security by writing Spring Boot APIs to pull necessary credentials from secure Azure key vault

Querry-Simpson Institute for Bioelectronics Chicago, IL
Software Engineer Intern October 2022 – August 2023

- Tailored UX of dysphagia analysis datakit to end users (medical researchers) with sophisticated Rust error handling
- Reduced datakit visualization time by ~30% through data pre-processing prior to feeding into Matplotlib

PROJECTS

LiftAnalyzer

Scrape a user's Apple Watch workouts, categorize them and train personalized predictive models for biometrics

Tools: *Swift, SwiftUI, HealthKit, CreateML, TestFlight*

MedScribe AI

User uploads a patient-physician MP3 interaction, generate a SOAP note and ICD codes based on semantic similarities

Tools: *Flask, Pinecone, React*

CleanRepo

Node.js CLI tool (published on npm) that removes previously merged and stale branches from a local and remote Git repository

Tools: *Node.js, Git*

ACTIVITIES

Delta Lab Evanston, IL
Research Intern January 2025 – Present

- Contributed to research focused on LLM-assisted brainstorming
- Developed full-stack tools to assist designers overcome design fixation using LLMs

Northwestern University Computer Science Department Evanston, IL
Undergraduate TA (Scalable Software Architectures, Foundations of Security) September 2024 – Present

- Prepared and graded content including cloud services, SQL scripting, full-stack design, security vulnerabilities, etc.
- Held regular office hours to assist students with homework assignments

South Asian Students' Alliance Evanston, IL
Fundraising Chair January 2023 – March 2025

- Acquired funding of over \$50,000 through community and university fundraisers
- Assisted in planning and handling events such as Holi, SASA Show, SASA Formal, etc.

ADDITIONAL

Technical Skills: C, C++, Python, JavaScript, TypeScript, PyTorch, Tensorflow, React, Git, Swift, Rust, SQL, MATLAB, x86_64 Assembly, REST APIs, AWS (EC2, Lambda, S3, RDS), Agile, Spring Boot
