EDUCATION

Northwestern University

Bachelor of Science

Evanston, IL

Expected December 2025

Major in Computer Science; Minor in Global Health Studies

Cumulative GPA: 3.745/4.00

Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Linear Algebra, Computer Systems, Discrete Math, AI, Scalable Software, Algorithm Design, Cybersecurity, Human-Computer Interactions

WORK EXPERIENCE

Humana - Centerwell Pharmacy

Backend Software Engineering Intern

Louisville, KY

May 2024 – Present

- Optimized the ePostRx prescription mail-order database, one of the largest SQL Server databases worldwide
- Developed a database archival roadmap by programmatically identifying all data eligible for archival
- Automated dynamic generation of queries to purge records from all tables in a database's hierarchy
- Created process to quickly (<1 minute) sync developer database changes to the archive database

Querry-Simpson Institute for Bioelectronics

Software Engineering Intern

Chicago, IL

October 2022 – August 2023

- Worked on bioinformatics tools spanning across multiple projects, e.g. dysphagia therapy analysis
- Debugged and improved error messages in PPG sensor analysis and visualization data kit
- Optimized memory usage and runtime of data visualization using Python's Matplotlib library

PROJECTS

[LiftAnalyzer](#)

January 2024

- Analyze a user's recorded strength training based on workout split
- Provide ML workout predictions based on users previous personalized health data
- Back-end: Swift, Create ML. Front-end: SwiftUI

[Mutation Analyzer](#)

July 2023

- Given two nucleotide sequences before and after a genetic mutation, provide details on the mutation that occurred
- Back-end: JavaScript. Front-end: React.

[WebMD](#)

June 2023

- Given user symptoms, predicts possible medical complications with probabilities of different ailments
- Back-end: C++, JavaScript. Front-end: React.

ACTIVITIES

South Asian Students' Alliance

Fundraising Chair

Evanston, IL

March 2023 – Present

- Acquired university and alumni funding of over \$30,000 for various cultural events
- Organized and participated in community fundraisers promoting other events
- Assisted in handling events such as Holi, SASA Show, SASA Formal, etc.

ADDITIONAL

Technical Skills: C, C++, Python, JavaScript, React, Git, Rust, SQL, MATLAB, x86_64 Assembly, REST APIs, AWS (EC2, Lambda, S3, RDS), Agile
